RE: RIPDES Stormwater General Permit for Construction Activity
Hampton Place
20 Hampton Way
South Kingstown, RI 02879

Dear Mr. Haddad;

Enclosed is your authorization to discharge stormwater associated with construction activity under the Rhode Island Pollutant Discharge Elimination System (RIPDES) Program. The Authorization to Discharge should be attached to your copy of the 2013 RIPDES General Permit for Stormwater Discharge Associated with Construction Activity (2013 Construction General Permit), which you already have on file, and be kept on-site as verification of authorization to discharge. All terms and conditions outlined in the 2013 Construction General Permit must be met. Any permit non-compliance constitutes a violation of Chapter 46-12 of the Rhode Island General Laws of 1956, as amended, and is grounds for enforcement. For future references and inquiry, your permit authorization number is RIPDES No. RIR 101171.

RIDEM strongly recommends that you obtain written assurances from contractors or subcontractors retained to undertake construction activity that they will comply with all applicable requirements.

If you have any questions regarding the 2013 Construction General Permit or the contents of this letter, you may contact Ray Larson at (401) 222-4700, Extension 7422.

Sincerely,

A handwritten signature in black ink, appearing to read "Eric A. Beck".

AUTHORIZATION TO DISCHARGE UNDER THE
RHODE ISLAND POLLUTANT DISCHARGE ELIMINATION SYSTEM
2013 General Permit for Stormwater Discharge Associated with Construction Activity

In compliance with the provisions of Chapter 46-12 of the Rhode Island General Laws, as amended,

Chatham Properties, LLC
2790 South County Trail
East Greenwich, RI 02818

is authorized to discharge Stormwater Associated with Construction Activity from a facility located at

Hampton Place
20 Hampton Way
South Kingstown, RI 02879

to receiving waters named

Indian Run and Tributaries

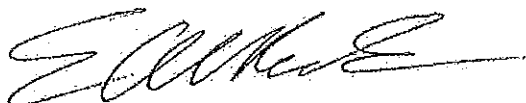

in accordance with the conditions and requirements set forth in the 2013 General Permit for Stormwater Discharge Associated with Construction Activity.

In accordance with Part I.D.3.e of the 2013 General Permit for Stormwater Discharge Associated with Construction Activity, coverage shall become effective upon departmental receipt of a complete and certified NOI, project narrative, and site plan (in accordance with Part I.D.1.b.ii), unless notified to the contrary. Therefore, coverage under the 2013 General Permit for Stormwater Discharge Associated with Construction Activity became effective on June 24, 2014.

Coverage under the General Permit for Stormwater Discharge Associated with Construction Activity and the authorization to discharge should expire at midnight, on September 25, 2018.

The issuance of this authorization does not relieve the permittee from compliance with any other applicable laws or regulations administered by the Department of Environmental Management or any other governmental entity.

Signed this 29th day of July, 2014,

Eric A. Beck, P.E.
Supervising Sanitary Engineer
RIPDES Permitting Program, Office of Water Resources
Rhode Island Department of Environmental Management
Providence, Rhode Island

Hi Brian,

I am wondering if construction is complete and if the site is stabilized? If it is, you should submit a Notice of Termination.

The permit is indeed still valid if you continue to pay the annual fee - which will be coming soon.

It expires in September 2025. Neal is correct.

Any questions, please let me know.

Traci Pena

Thank you Neal.

Traci, I was hoping to get confirmation on the permit expiration date of this permit. I mentioned to Neal that the owner has continued to pay the yearly \$100 fee. If helpful, I have attached a from for your use.

Thank you
Brian
