Re: Wetland/Coastal Delineation

Site: A.P. 47-3, Lot 119, 523 South Road, South Kingstown, RI

Dear Mr. Kelley,

As requested, I have completed a site investigation on March 3, 2024 to determine the presence of wetlands and/or coastal features on 47-3, Lot 119, 523 South Road, South Kingstown, RI. The following data summarizes my findings.

The property identified was found to not have any Coastal Resources Management Council (CRMC) or Rhode Island Department of Environmental Management (RIDEM) regulated freshwater or coastal wetlands, streams, or coastal features that might affect development. A cursory review of all abutting lands also indicated no wetlands or coastal features whose buffers might affect your project.

Please contact me if you have any questions or concerns regarding this matter.

Sincerely,
